I have applied to the Board of
Education for the right to have my
son attend school there. I
have given notice to my employer
and he has now told me
he will do all he can to help him
and that he will give him
any assistance possible when called
upon. I am now awaiting his answer.
The father has given the Board of
Education a copy of the letter from
the employer. He says he will do
all he can to help him. The
Board of Education has agreed to
allow him to attend school there
but they have not yet decided on
the amount of money he will receive.

experience has shown that the
actual work is done by the workers.

2. The need for you to do paper
is apparent to ourselves, in a large
number of set books. The greater
part of each lesson allows of
a short reading. In fact the reading
is either by narration or by acting on
a text passage. We do however
allow a great deal of time for writing

They usually spend all.

French is said poor time to try &

on this when you ask them a question
in one of both languages and they will
say "This is not English" which goes
down like a bombshell.

very kindly treated. I have
seen a way that you can take by
the rail road, or across the lake by
steamer.

of course we expect you to
travel in steamer to port &
return. The best railroad to
go down will be the one from
the town of St. Paul, that goes to
the Lake Superior. That road
or any railroad will be in
the same line bordering on the
Lake Superior. It is a
pleasant ride, and you will
have a fine view of the
water, & the country.

Dear son - I am sorry
how long it will be before I can get
to write. However, we have had
many and very nice weather days
in our hundred miles of travel.
After our first night in
the hills, we camped in
a small place. It was a
fine place, but there
was no water or food, so
we had to go on without
water or food. We had to
walk all day and night
to get to the next town.
St. Louis, May 22nd

We got away from the hills
at 8 AM -
The road of travel was very bad
and it required us to stop
every hour to rest and
fix the horses.

Sierra Nevada. There
were two points over which we
directed our steps by the number
of stones on the ground. A well
worn road, down a steep slope
and was fully loaded with stones
between 4 lbs. and 7 lbs. in weight,
and had to be stepped over
one by one - we rolled each
stone off in. Both men walked

to fall over. It was
about 10 ft. high & 1 ft. in diameter
at the base. The trunk
was covered with a thick layer of
greyish-green hair which
was easily rubbed off.
The leaves were large & ovate,
oblique at the base, pointed
at the apex, and about 1 ft. long
and 6 in. wide. They were
smooth above, but had
a distinct midrib and
veins running from the base
to the apex. The flowers
were numerous, white, and
had a strong fragrance.
The fruit was round and
yellow when ripe, and
had a sweet taste.

make up one's mind to do what
one has to do. I have had a long
time now to consider the question

Progress

It has been announced by Prof. ^{W.} A. Ladd
that the new adviser in short communication
to the lack of sound principles scarcely
applied.

The moment has come - when
we have passed over judges and evaluators,
how keen should your professorship feel
for you, while the task has long since, ^{been}
now in fact, been met and measured by
the realities of the evaluator. And
you have been the synonym of
evaluator. No fault before now,
nor then, such weakness by him,
and not, ^{the} knowing student.

The new adviser will make use of
education v. experience, with marked
success, and the latter will not be
in pure option of service or maneuvre,
but with more rewards on the higher level
of inspiration-realization. Both knowing
and doing in the process of progress-real
and to strength and value and meaning
and open the way. It is a surprising
